

Video Intercom

- Stainless Steel Enclosure
- Protection level IP54
- HD calls with advanced noise cancellation
- Corrosion-resistant coating
- CE, FCC, RoHS, IK10, IP54, ISO9001 standards

MAIN FEATURES

Constructed from stainless steel with a brushed surface finish, the emergency telephones are engineered to meet stringent quality standards, providing strong protection against vandalism and guaranteeing stable communication at all times.

The series has undergone salt spray testing, ensuring outstanding resistance to moisture and corrosion, making it highly reliable in harsh environments.

Designed for quick installation, the wiring access is positioned at the back of the unit to minimize the risk of tampering.

Suitable for use in locations such as parking areas, elevators, hotels, entrances, railway and metro platforms, hospitals, police stations, ATMs, and various outdoor facilities.

- Hands-free full-duplex intercom with one speed dial button
- The handset supports hearing aid compatibility (HAC)
- High Anti-noise Performance
- Built-in speaker and microphone supporting voice interaction pole for hands-free calling

TECHNICAL SPECIFICATIONS

Basic Features	
Waterproof Rate	IP54
Noise cancellation	Optional
Full-duplex communication	Support
Enclosure Material	Aluminium alloy or Stainless Steel
Power supply	DC 12 V/2A or POE
Power consumption	Standby:1.5W, Working power: 3W
Operating Temperature & Humidity	-20 °C to + 60 °C
Mean Time Between Failures	More than 50,000 hours
VoIP Features	
Protocol	SIP 2.0(RFC3261)
Registration line	6 lines at same time
Codec	G.711A/u, G.7231 high/low, G.729.G.722, G.726
Echo cancellation	Supports G.168, Handsfree up to 96ms
Network	10/100 Mbps WAN/LAN: Support bridge mode Support virtual LAN Support stun NAT penetration
Package	Phone size : 280*155*40mm Packaging materials : corrugated box, pearl cotton lining Net weight : about 2 KG Gross Weight : about 3 KG

DIMENSIONS

Package	
Unit size	280*155*40(mm)
Packaging materials	corrugated box, pearl cotton lining
Weight	Net weight : about 2 KG / Gross Weight :3 KG

APPLICATION

IP telephony system is an efficient and convenient communication solution that utilizes an Internet connection to enable voice calls and other communication services. Compared to traditional telephone systems, IP telephony offers greater efficiency and flexibility.
