

Telephone Hood

- Fiberglass material
- Yellow/Red/custom
- Sound blocking Rate: 70% ; 25-40 db reduction
- Corrosion-resistant coating

MAIN FEATURES

1. Main material: fiberglass;
2. Color: Yellow/Red, customizable color
3. Sound blocking rate: 70%;
4. Dimensions: 690*473*805mm;
5. Made of glass fiber reinforced plastics, it is molded by a mold, with beautiful appearance and strong applicability. It has the characteristics of rainproof, moisture-proof and riot-proof, noise reduction, antifreeze, corrosion resistance, high temperature resistance, flame retardancy, etc. It can be used for ships, offshore platforms, power plants, power stations, smelters, onshore petrochemicals, energy industries, schools, parks, highways, and highway intersections to block rain and reduce noise

DIMENSIONS

Package	
Unit size	690*473*805(mm)
Packaging materials	Wood Stand
Weight	Net weight : about 13 KG / Gross Weight :16 KG
